

## ANSWERS Software Service – Programme of Courses 2021

Course	Who Should Attend	Objectives	Dates	Fees (Non Residential)
<b>Introduction to MCBEND</b>	New or inexperienced users of MCBEND	The course is aimed at providing the new or inexperienced user of the software with a broad understanding of the capabilities of MCBEND, covering a range of radiation transport scenarios and applications.	Spring dates TBC  28 Sep - 1 Oct 2021 (4 Days)	<b>£2,255</b> Excl. VAT
<b>Advanced MCBEND</b>	For those with significant experience of MCBEND and who ideally have attended the introductory MCBEND course.	The course is aimed at providing the experienced user of MCBEND with more understanding of the theoretical ideas behind the code and their implementation within the software.	Spring dates TBC  5 - 7 Oct 2021 (3 Days)	<b>£1,890</b> Excl. VAT
<b>Introduction to MONK</b>	New or inexperienced users of MONK	To provide the new or inexperienced user of MONK for criticality purposes with a broad understanding of the capabilities of the code and hands-on experience of constructing input specifications.	Spring dates TBC  12 – 15 Oct 2021 (4 Days)	<b>£2,255</b> Excl. VAT
<b>Advanced MONK</b>	For those with significant experience of MONK and who ideally have attended the introductory MONK course.	The course is aimed at providing the experienced user of MONK with more understanding of the theoretical ideas behind the code and their implementation within the software.	Spring dates TBC  19 - 21 Oct 2021 (3 Days)	<b>£1,890</b> Excl. VAT
<b>MONK Application Masterclass</b>	The course is heavily weighted towards the application of the code and is ideally suited to the experienced user.	The course is aimed at providing the experienced user of MONK with advice and instruction for using MONK for particular applications. There is scope for the applications focus of the course to be tailored to specific organisation requirements.	On Request (3 Days)	<b>£1,890</b> Excl. VAT
<b>Introduction to WIMS</b>	New or inexperienced users of WIMS	The course is aimed at providing the new or inexperienced user of WIMS with a broad understanding of the capabilities of the code and hands-on experience of constructing input specifications.	Spring dates TBC  1 - 5 Nov 2021 (5 Days)	<b>£2,860</b> Excl. VAT
<b>SMR Whole Core Modelling using WIMS</b>	Experienced users of WIMS	The course is aimed at providing experienced users of WIMS with an understanding of the capabilities of the code for the whole core modelling of Small Modular Reactors. This includes development of the whole core model and simulation of the through life core behaviour, including coupled neutronic and thermal hydraulic feedback.	Spring dates TBC  9 - 11 Nov 2021 (3 Days)	<b>£1,890</b> Excl. VAT
<b>Advanced WIMS</b>	For those with significant experience of WIMS and who ideally have attended the introductory WIMS course.	The course is aimed at providing the experienced user of WIMS with more understanding of the theoretical ideas behind the code and their implementation within the software.	Spring dates TBC  16 - 19 Nov 2021 (4 Days)	<b>£2,255</b> Excl. VAT
<b>Introduction to FEAT</b>	New or inexperienced users of FEAT	The course is aimed at providing the inexperienced user of the software with a broad understanding of the capabilities of the code and to teach the efficient use of FEAT in the thermal, fluids and stress engineering areas.	On Request (4 Days)	<b>£2,255</b> Excl. VAT
<b>Introduction to RANKERN</b>	New or inexperienced users of RANKERN	The course is aimed at providing the inexperienced user of the software with a broad understanding of the capabilities of RANKERN (a 3D Point-Kernel computer program written for gamma-ray analysis).	On Request (2.5 Days)	<b>£1,890</b> Excl. VAT
<b>Introduction to FISPIN</b>	New or inexperienced users of FISPIN	The course is aimed at providing the inexperienced user of the software with a broad understanding of the capabilities of calculation of nuclide inventories.	On Request (1.5 Days)	<b>£1,460</b> Excl. VAT

**BOOKING FORM**

**Registration:** Please complete the booking form and email to: [lydia.ruddy@jacobs.com](mailto:lydia.ruddy@jacobs.com) or [chris.bazell@jacobs.com](mailto:chris.bazell@jacobs.com)

For any enquiries please telephone Lydia Ruddy / Chris Bazell: 01305 595533 / 01305 595502
